GOALS & IMPACT

Our goal is to create character-building programs that benefit children and young adults, teaching them important life skills at a crucial time in their young lives.

GameChang3rs helps kids learn how to begin building their legacies with character, while empowering high school mentors with deeper learning competencies, such as team collaboration, cooperation, social and emotional awareness, time management and presentation skills.

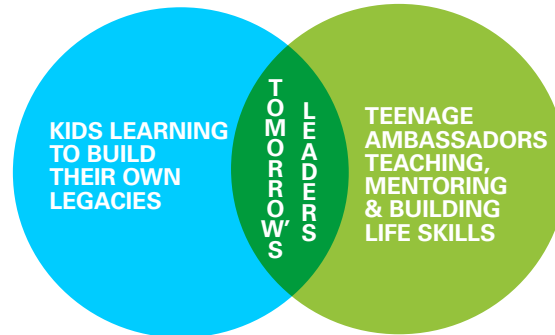

Our new **Legacy Leadership Conference** gives high school students a competitive edge in overcoming adversity in the next stages of their lives. This conference is available to students nationwide.

We also provide awards, college and postgraduate scholarships to further help them along the path of becoming educated, compassionate leaders with strong character.

We have already helped thousands of kids, and with your support, we'll continue to help thousands more.

Our work is made possible only by donations. Please consider being part of this meaningful mission!

OUR INSPIRATION

Mike Sadler's legacy is our inspiration. Mike achieved unparalleled recognition in academics and athletics.

At MSU Mike earned a bachelor's degree in Engineering and a master's degree in Public Policy. He was a two-time All-American, and the first ever, four-time Academic All-American in MSU history. Mike earned the Big Ten Conference Medal of Honor in 2014 for outstanding athletic and academic achievement; he was a National Football Foundation Scholar Athlete Award winner, and he was inducted into the MSU Hall of Fame in 2016. Mike inspired people across the country to reach higher and work harder to be their best selves, while finding the prize in each day of their journeys. He mindfully created his legacy.

Mike consistently focused on **Sadler Six Pillars** in creating his legacy: *Education, Goals, Integrity, Compassion, Friends and Humor.* His extension of these pillars is the basis for our work.
